Upper Laramie River and Middle North Platte – Glendo Watershed Studies

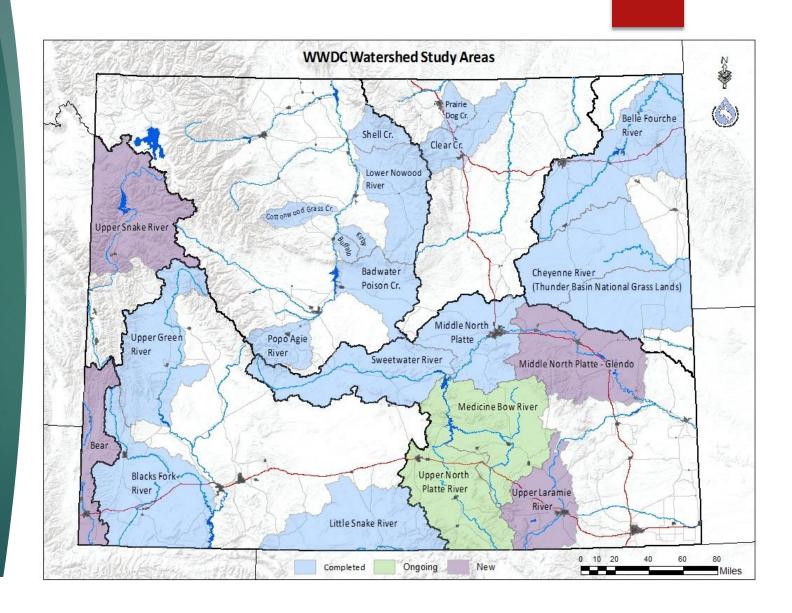

JODIE PAVLICA AND TONY RUTHERFORD

Presentation Outline

- ► Statewide Look
- ▶ Upper Laramie River
- ► Middle North Platte Glendo
- ► Small Water Project Program
- ► Contact Information

WWDC Watershed Studies

New, Ongoing, and Completed Watershed Studies

Upper Laramie River Watershed

Includes: Wheatland Reservoir No. 2, Wheatland Reservoir No. 3, and the Laramie Plains Lakes

<u>Area:</u> 1,201,671 acres

<u>Primary Crops:</u> Grass Hay, Irrigated Pasture (~91,482 Irrigated Acres)

<u>Facts:</u> ~ 90% Rangeland, ~70% Privately Owned

- Sponsored by the Laramie Rivers Conservation District.
- Located primarily in Albany County
- North Platte River Decree, 1945 (& Modified, 2001)
- Platte River Recovery Implementation Program
- ► Laramie River Decree, 1922

Middle North Platte – Glendo Watershed

Includes: Glendo Reservoir, La Prele Reservoir, and Guernsey Reservoir.

Area: 2,095,177 acres

<u>Primary Crops:</u> Alfalfa, Grass Hay, Irrigated Pasture

<u>Usage:</u> 67% Range, 17% Forest, 10% Pasture-Hay, 4% Other, 1% Developed, 1% Water/Wetlands

- Sponsored by the Converse County Conservation District.
- Includes portions of five other districts including:
 - ▶ Platte County Resource District
 - Niobrara Conservation District
 - Laramie Rivers Conservation District
 - Natrona County Conservation District
 - ▶ Lingle Ft. Laramie Conservation District

Progress to Date

- ▶ The 2015 Legislature authorized \$375,000 to complete each study
- ▶ Statements of Interest were received from consultants February 10th
- Proposals submitted by consultants April 3rd
- ► The top three were interviewed Wednesday May 6th
- May 8th, the Commission gave the office authorization to begin contract negotiations
- Contracts will be signed by the Commission on June 4th
- ▶ Notice to proceed us usually issues around the 1st of July.
- ▶ We want to hear from you.

Small Water Projects Program

- <u>Small project</u>: A project where the estimated construction or rehabilitation cost, permit procurement, construction engineering, and project land procurement are \$135,000 or less and where the maximum financial contribution from the commission is \$35,000 or less.
- ▶ <u>Eligible Entities</u>: Some examples of eligible entities include Conservation Districts, Watershed Improvement Districts, Water Conservancy Districts, Irrigation Districts, and Municipalities.
- Project Types: Small Reservoirs, Wells, Solar Platforms, Pipelines and Conveyance facilities, Springs, Wetland Development, Irrigation projects, Windmills.

Small Water Projects Program

- Eligibility: Projects must be within the boundary of an existing WWDC Watershed study or equivalent as determined by WWDO.
- Applications: Are due by January 1 of each year, but may be submitted earlier. Applications meeting criteria requirements will be considered during the regularly scheduled WWDC Meeting in March.
